I am not in law enforcement, but my dad retired from the Cincinnati Police Department.

Many decades ago when I was a teenager working part-time jobs after school, I wanted to buy a car. My dad told me I needed \$5.00 to join the credit union and he could help me get that car.

I've always had that \$5.00 share in the credit union. I can't remember how many times the credit union has helped me buy a car, a house, etc...

I live in Indiana now, I have for 16 years, but I'm still a member with the credit union and always will be.
